

## Looking for a Google Vault email archiving alternative?

MORE COST-EFFECTIVE THAN GOOGLE VAULT AU LICENSES. MORE ROBUST SEARCH, EDISCOVERY AND EXPORT. AUTOMATED MIGRATION FROM VAULT.

Jatheon is an email archiving specialist that provides email, social media and mobile archiving solutions and greatly reduces complexity for compliance officers and end users.

Jatheon offers industry's best on-premise and cloud email archiving solutions that come with 24/7 monitoring and support, convenient add-ons and the fastest advanced search available on the market.

## Why switch from Google Vault to Jatheon?

Here's a quick rundown of features essential in email archiving—see how Jatheon stacks against Google Vault and ways you can cut archiving costs, while preserving all your Google Vault data:

FEATURES	JATHEON ARCHIVING SUITE (ON-PREMISE)	JATHEON CLOUD	GOOGLE VAULT

Support and monitoring*	*****	*****	*****
Free 30-day trial	✓	✓	✓

\*explained in detail in the section below

# Top 10 features you're missing with Google Vault

## 1. Find your Google vault data in seconds

Just like Google Vault, Jatheon's search allows you to include various search operators to narrow down your search. Apart from using **Boolean and wildcard operators**, Jatheon's information archiving software supports **proximity and fuzzy search** and can **search through email attachments**. Based on the latest search technology, advanced search enables you to **search through large databases**, do complex, organization-wide searches and pinpoint exact data in a matter of seconds. No matter how large your Vault archive is, Jatheon's search will easily manage it.

## 3. A 64GB alternative to Google Vault export

Having issues when running Google Vault export for larger files? Although bulk migrations aren't the primary purpose of email archiving solutions, we believe that a great email archiver needs to have a robust bulk export functionality. With Jatheon, the default maximum size of the exported PST file is 3 GB, but can **be easily customized to up to 64GB**, depending on your total RAM size. Plus, Jatheon's advanced export runs silently in the background and frees up the user interface for other tasks.

## 5. All user information in a single archive

Preserve all data for users who leave your organization. While Google Vault archives only messages from Gmail, Jatheon lets you archive all incoming, outgoing and internal messages from **all folders and mixed email environments**. Plus, Jatheon supports the **archiving of other data types** like social media, text messages, calls, chat apps etc. and allows you to search all this data from a single interface.

## 2. Like Google Vault export, but handles larger files

Do you need more speed and efficiency when exporting data? Jatheon email archive brings a powerful alternative to Google Vault export. With Jatheon's enhanced export feature, you'll be able to export your search results to **EML, PDF and PST – directly through the user interface** without having to go through the Outlook Plugin or use online PST creators. Both these options are limited and can't handle a large number of files. With Jatheon, you will be able to **handle larger exports and save time and effort**.

## 4. Ease of use for admins and compliance managers

No one should struggle with email archive management, especially not administrators and compliance managers. Even experienced admins find it complicated to handle compliance and ediscovery actions on Google Vault. Jatheon's user interface is straightforward, built for the 2020 user and allows **effortless search and efficient archive management**.

## 6. Total control of the archive, on your terms

Google Vault comes with inherent drawbacks associated with cloud-based products – it can be cost-intensive, especially for larger organizations with high employee turnover and many AU licenses to manage. For organizations working with sensitive client data or protected health information, it's wiser to rely on an in-house archiving system for security reasons. Jatheon offers both hardware and cloud archiving solutions and works with all major email environments.

### 7. Dedicated support team & feature requests

If you're looking to migrate data from Vault AU license, or Google Vault, our dedicated tech support team will help you preserve all your user data safely, **free of charge**. We're talking real, human 24/7 tech support, where every engineer can help. We listen to your feedback and improve our software continuously to accommodate customer feature requests. Jatheon has continual system monitoring that allows a rapid, proactive response and intervention for any software, hardware or network connectivity issues.

### 9. Google vault ediscovery alternative, with advanced features

Jatheon email archiving suite is a perfect alternative to Google Vault for ediscovery. Jatheon's archiving software comes with extensive compliance and ediscovery feature set – from customizable retention policies and automatic deletion after the retention window expires to legal hold, user activity trail and alerts, your legal and compliance teams can rest assured that all the data will be there when needed.

### 8. Customizable user roles and permissions

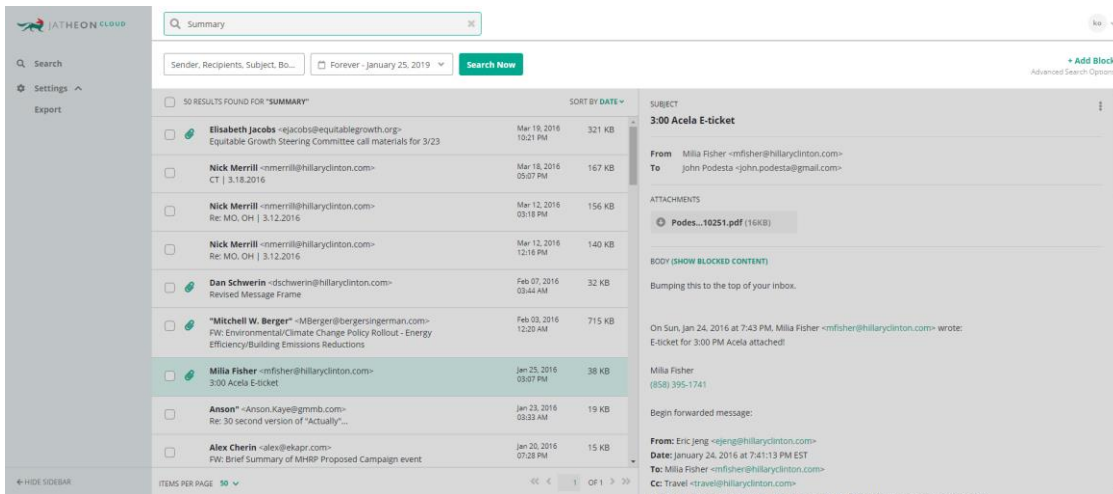

Although Jatheon's email archiving solutions come with 3 default roles with preset permissions, you can create an unlimited number of new roles and customize them to accommodate the specific needs of your organization, departments and teams. Whether you've used Google Vault for education or a large enterprise, Jatheon lets you fully customize your archiving and data retention, so that no piece of information gets out.

### 10. Restore VFE user data and Vault emails in a single click

Google Vault users often cite one of the system's main drawbacks – the fact that it's quite complex, if not impossible, to restore emails to an email account. Jatheon lets you do this in a single click.

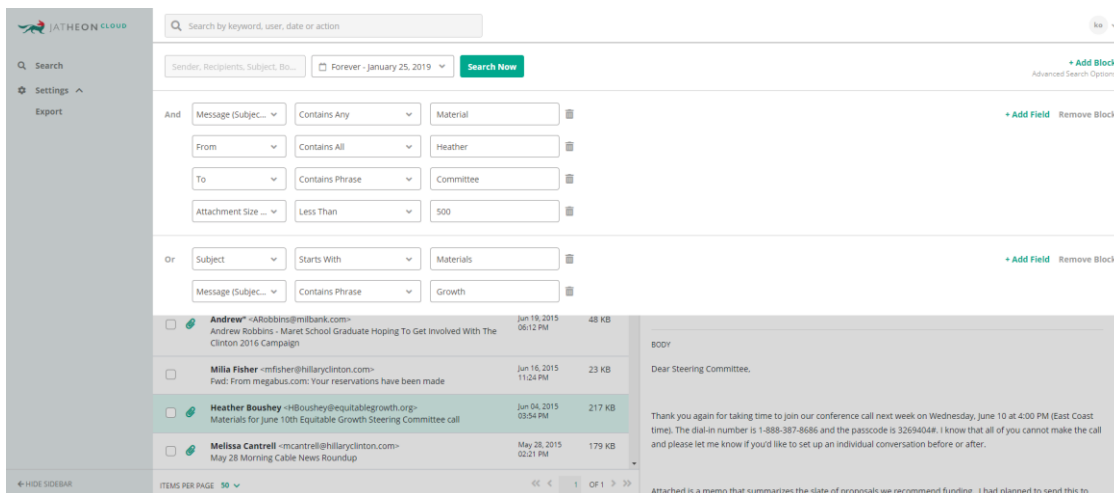

# Jattheon – Overview of Basic Features

Get a closer look at some of the most commonly used software features.

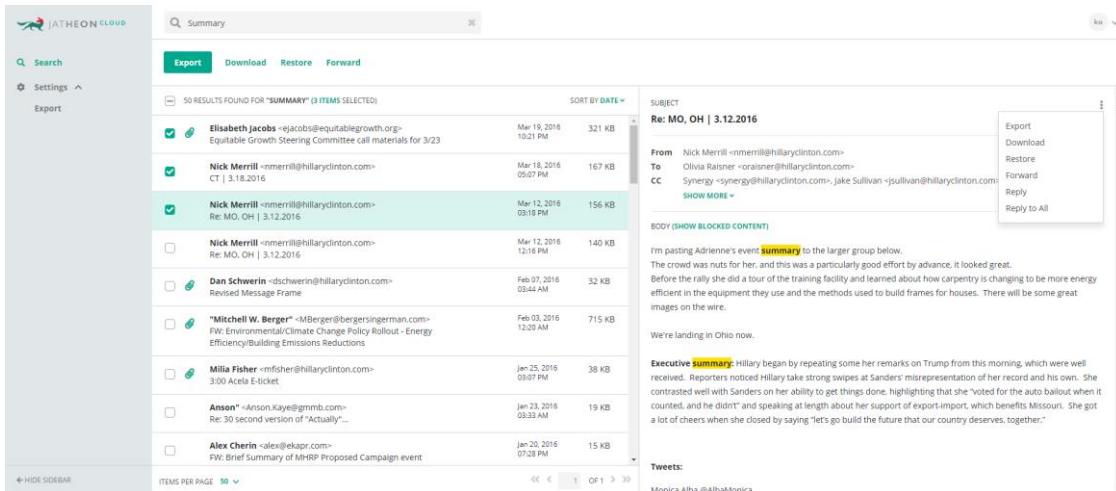

## Jattheon Simple Search

Jattheon’s Simple Search lets you search through parts of emails using various search criteria. This simple, yet powerful search functionality was designed to save time and was made with end users in mind.

## Jattheon Advanced Search

Jattheon’s Advanced Search allows compliance officers and administrators to search through millions of emails and end up with a manageable number of results to review. Superior system logic based on search blocks and containers lets you construct complex searches and filter results easily.

BODY (SHOW BLOCKED CONTENT)

I'm pasting Adrienne's event **summary** to the larger group below. The crowd was nuts for her, and this was a particularly good effort by advance. It looked great. Before the rally she did a tour of the training facility and learned about how carpentry is changing to be more energy efficient in the equipment they use and the methods used to build frames for houses. There will be some great images on the wire.

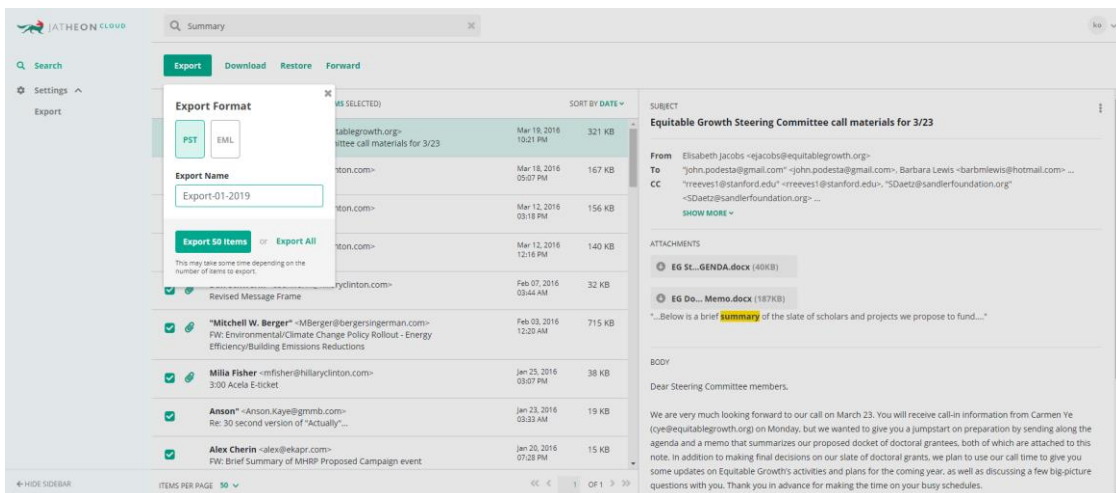

We're landing in Ohio now.

**Executive Summary:** Hillary began by repeating some her remarks on Trump from this morning, which were well received. Reporters noticed Hillary take strong swipes at Sanders' misrepresentation of her record and his own. She contrasted well with Sanders on her ability to get things done, highlighting that she "voted for the auto bailout when it counted, and he didn't" and speaking at length about her support of export-import, which benefits Missouri. She got a lot of cheers when she closed by saying "let's go build the future that our country deserves, together."

"...Below is a brief **summary** of the slate of scholars and projects we propose to fund..."

BODY

Dear Steering Committee members,

We are very much looking forward to our call on March 23. You will receive call-in information from Carmen Ye (cye@equitablegrowth.org) on Monday, but we wanted to give you a jumpstart on preparation by sending along the Agenda and a memo that summarizes our proposed docket of doctoral grantees, both of which are attached to this note. In addition to making final decisions on our slate of doctoral grants, we plan to use our call time to give you some updates on Equitable Growth's activities and plans for the coming year, as well as discussing a few big-picture questions with you. Thank you in advance for making the time on your busy schedules.

## Jatheon Data Export

After conducting a search and getting search results, users can select which items they want to export. Users can export to PST, EML and PDF file formats. When the export is ready, the user receives an email with the download link.

## More things you'll love about Jatheon

- ✓ Automated, seamless migration of Google Vault legacy data
- ✓ Best-rated data archiving software on Gartner (4.9 out of 5)
- ✓ Greater functionality at a fraction of the cost
- ✓ Deduplication and single instance storage
- ✓ Outlook plugin
- ✓ Seamless LDAP integration
- ✓ Integrated Social media, mobile and WhatsApp archiving
- ✓ Excellent cloud backup and data recovery plans
- ✓ More than 6 billion archived messages
- ✓ Included in 2016-2021 Radicati Information Archiving Market Quadrant

## Customers who have happily switched to Jatheon

"Jatheon is one of the best kept secrets in the email archiving world. Their advanced search is incredible. It's easy to create a complex search using many email parameters. I can create searches and download results in minutes."

[Jay A, Director of IT](#)

"We've been using it for years. It's simple, easy to use, no hassle. Great support. Price is good. Hopefully in the future we will subscribe to the additional features that are available."

[Brian Parker, Southwestern Oregon Community College](#)

"Export is extremely easy and efficient compared to other solutions I've worked with. The export task gets everything done in no time. It's also very competitively priced."

[Shaun Tuttle, Marsico Capital Management LLC](#)

## Ready to give it a try?

Google charging for free users in Vault brings significant costs at already dire times.

At Jatheon, we can safely and quickly migrate from Google Vault and preserve your data for as long as you need, in a variety of formats, **without ever charging for inactive mailboxes.**

Schedule a free discovery call and let's talk about your specific needs. Preempt the costs, preserve all valuable information. Call 1-888-528-4366 and let's discuss your needs. If you decide to make the switch, we promise you a considerable discount in price on top of all other functionalities.

As email archiving experts, we're trusted by  
enterprises and small businesses alike.

## About Jatheon

We founded Jatheon Technologies Inc. in 2004 to empower companies in their efforts to ensure email compliance and facilitate eDiscovery.

Today, we are leaders in the archiving industry, with **500+ clients** in the US and Canada, **5+ billion processed messages** and unique on-premise and cloud email archiving and governance solutions. We continue to raise the bar throughout the industry with our latest enterprise-grade **cCore** archiving appliances, a powerful archiving, retrieval and dynamic monitoring software and best-in class tech support, **Jatheon Care**. In 2017, we built **Jatheon CTRL** – a social media and mobile archiving add-on that smoothly integrates with our email archiving software. In 2018, we designed **Jatheon Cloud** – the next-generation cloud email archiving solution best suitable for small and medium-sized organizations.

It is our mission to ensure security and bring peace of mind to businesses, government agencies, educational, financial and healthcare institutions across the globe. We're headquartered in Toronto, but we serve clients worldwide through our network of global business partners. For more information, please visit [www.jatheon.com](http://www.jatheon.com).
